FACES OF WEST MICHIGAN 2020

THE FACES OF **RESIDENTIAL BUILDING**

SCOTT CHRISTOPHER HOMES

620 THREE MILE RD. NW, STE. A, GRAND RAPIDS, MI 49544 | 616-784-4500 | SCOTTCHRISTOPHERHOMES.COM

Scott Christopher Homes has been challenging the status quo in residential building for more than 35 years. With full-time carpenters, project managers, a civil engineer, estimators, and support staff, plus a custom cabinet shop, they can undertake custom-home and renovation projects of any scale, style, and scope.

From their depth of experience, Scott Christopher Homes realizes it takes a right-sized builder to produce a first-class experience. Right-sized means being large enough to have the muscle to

make things happen at will, but small enough to be personal and attentive. Small enough to give a build experience uniquely tailored to each client, but large enough to back that one-client feel with the powerhouse of a large firm's capabilities. They have intentionally held themselves to that right size. Fully dedicating their resources to each project give clients the satisfaction of non-stop progress with the attention and care of feeling like they are the only client.
