THE FACES OF **RESIDENTIAL BUILDING** SCOTT CHRISTOPHER HOMES

620 THREE MILE RD NW, STE. A, GRAND RAPIDS, MI 49544 | 616-784-4500 | SCOTTCHRISTOPHERHOMES.COM

Having a father and grandfather who were builders, Scott Christopher was no stranger to a construction site. After graduating with a degree in construction management and starting his career as a carpenter, Christopher soon recognized there was opportunity for a builder who could take quality and customer service to the next level.

In 1982, Christopher opened Scott Christopher Homes; since then, SCH has grown to include a team of 30 people. With full-time project managers, carpenters, an in-house civil engineer, estimators, and

support staff, plus a full-time custom cabinet shop, SCH can take on projects of every scope and scale.

SCH has experience in historical renovations, contemporary new builds, sports barns, urban infill projects, and everything in between. They use creativity and innovation to produce unparalleled building solutions. SCH relishes challenges that push them to be better craftspeople in their trade, and they never settle for what's been done before.
